

A close-up, artistic photograph of a person's lips. The lips are slightly parted, showing the texture of the skin and the natural color of the lips. The lighting is soft and even, highlighting the contours of the lips. The text "GENIUS+" is overlaid on the right side of the image, in a white, serif font. The letter "I" in "GENIUS" is replaced by a vertical line with a small dot at the bottom, resembling a needle or a stylized letter. The overall tone of the image is elegant and sophisticated.

GENIUS⁺

GENIUS⁺

POST TREATMENT

Expect: Some redness
Swelling
Tenderness
(Occasionally bruising)

Action: These are short term and will subside within a few days. Although it can take up to 2 weeks for dermal filler to completely settle down.

GENIUS⁺

POST TREATMENT
