

Hyperboost

Jelly Masks

Step-by-step Guide

1. Use the mixing kit and put 2x scoops of the powder into the mixing bowl.
2. Add 25ml of de-ionised (distilled) water to the mixing bowl.
3. Mix thoroughly until the mixture thickens.
4. Use the spatula to coat the skin evenly with the jelly mask mix.
5. Leave the mask to set for 20 minutes until it is no longer wet to touch. Once set you can peel off the mask.
